
Configure permissions for report phishing

Enable Outlook's reporting feature

With the latest Outlook, the reporting button in Outlook is enabled by default.

If you are working with an earlier version then you may need to enable the feature.

If you see the button in outlook, then you are good to go. Otherwise follow [Microsoft's guide](#) to enable it.

Step 1: Go to <https://portal.azure.com/>

Step 2: Click on "App registrations"

The screenshot shows the Microsoft Azure portal homepage. A red arrow points to the address bar with the text "(1) Go to <https://portal.azure.com/>". Below the header, the "Welcome to Azure!" section offers three options: "Start with an Azure free trial", "Manage Microsoft Entra ID", and "Access student benefits". The "Azure services" section displays a grid of icons for various services. A red arrow points to the "App registrations" icon with the text "(2) Click 'App registrations'". Below this, the "Resources" section is visible, showing a table with columns for "Name", "Type", and "Last Viewed".

Welcome to Azure!
Don't have a subscription? Check out the following options.

- Start with an Azure free trial**
Get \$200 free credit toward Azure products and services, plus 12 months of popular [free services](#).
[Start](#)
- Manage Microsoft Entra ID**
Azure Active Directory is becoming Microsoft Entra ID. Secure access for everyone.
[View](#) [Learn more](#)
- Access student benefits**
Get free software, Azure credit, or access Azure Dev Tools for Teaching after you verify your academic status.

Granting tenant-wide consent may revoke permissions that have already been granted tenant-wide for that application. Permissions that use

The "Admin consent required" column shows the default value for an organization. However, user consent can be customized per permission

Configured permissions

Applications are authorized to call APIs when they are granted permissions by users/admins as part of the consent process. The list of configured permissions shows all the permissions the application needs. [Learn more about permissions and consent](#)

+ Add a permission

API	Permissions name	Type	Description	Admin consent required
				No

To view and manage consented permissions for individual apps, as well as your tenant's consent settings, try [Enterprise applications](#).

Request API permissions

- Azure Service Management**
Programmatic access to much of the functionality available through the Azure portal
- Data Export Service for Microsoft Dynamics 365**
Export data from Microsoft Dynamics CRM organization to an external destination
- Dynamics 365 Central**
Programmatic access to functionality in Dynamics Central
- Dynamics CRM**
Access the capabilities of CRM business software and ERP systems
- Intune**
Programmatic access to Intune data
- Microsoft Purview**
Unified data governance helps you manage on-premises, multi-cloud, and cloud-based (SaaS) data
- Office 365 Management APIs**
Retrieve information about user, admin, system, and policy actions and events from Office 365 and Microsoft Entra ID activity logs
- OneNote**
Programmatic access to OneNote data
- Power Automate**
Programmatic access to Power Automate flows
- Power BI Service**
Programmatic access to Dashboard resources such as Datasets, Tables, and Rows in Power BI
- PowerApps Runtime Service**
Powerful data storage, modeling, security and integration capabilities
- SharePoint**
Interact remotely with SharePoint
- Skype for Business**
Integrate real-time presence, secure messaging, calling, and conference capabilities
- Universal Print**
Programmatic access to create and manage printer and print job resources
- Windows Push Services (WNS)**
Integrate with Windows Notification Services (toast, tile, badge, and from your own cloud app client on the Windows

SET PERMISSIONS FOR THE APPLICATION

Add permissions to the application:

Step 9: Click "Application permissions"

Step 10: Under ActivityFeed, select "ActivityFeed.Read"
This gives CyberPilot read access to submission activity feed"

Step 11: Save by clicking "Add permissions"

Request API permissions

[← All APIs](#)

 Office 365 Management APIs
<https://manage.office.com/> [Docs](#) [↗](#)

What type of permissions does your application require?

Delegated permissions
Your application needs to access the API as the signed-in user.

(9) Click "Application permissions"

Permission	Admin consent required
ActivityFeed (1)	
☒ ActivityFeed.Read ⓘ Read activity data for your organization	
☐ ActivityFeed.ReadDlp ⓘ Read DLP policy events including detected sensitive data	Yes
> ServiceHealth	

(10) Find and open ActivityFeed

(10) Enable "ActivityFeed.Read"

(11) Save by clicking "Add permissions"

Add permissions

SET PERMISSIONS FOR THE APPLICATION: Attack Simulation

Navigate to Microsoft Graph:

Step 12: Click "API permissions"

Step 13: Click "+Add a permission"

Step 14: Click "Microsoft Graph"

The screenshot shows the Microsoft Azure portal interface. The left sidebar contains the navigation menu with 'API permissions' highlighted. The main content area shows the 'Request API permissions' page for the 'CyberPilot Awareness Training' application. A table lists the permissions, with 'Microsoft Graph' selected. Red arrows indicate the steps: (12) Click 'API permissions', (13) Click '+ Add a permission', and (14) Click 'Microsoft Graph'.
